## Instructions

^ COLLAPSE ^

1. Visit w3schools and go to the HTML Tutorial: <https://my-learning.w3schools.com/tutorial/mysql>
  1. MySQL and RDBMS Fundamentals Lessons 1.1 - 1.3
  2. Query Basics Lessons 2.1 - 2.8
  3. Data Manipulation Lessons 3.1 - 3.4
  4. Query Techniques Lessons 4.1 - 4.9
  5. Advanced Queries Lessons 5.1 - 5.11
  6. Database Management Lessons 6.3 - 6.15
  7. MySQL Quiz at the end of the tutorial

## Guide:

1. Make sure you're in the main branch locally and `git pull origin main` any pending changes
2. Make a new branch per the recommended branch name below (`git checkout -b ...`)
3. Fill in the items in the worksheet below (save as often as necessary)
4. Once finished, export the worksheet
5. Add the output file to any location of your choice in your repository folder
6. Check that git sees it via `git status`
7. If everything is good, continue to submit
8. Track the file(s) via `git add`
9. Commit the changes via `git commit` (don't forget the commit message)

10. Push the changes to GitHub via `git push` (don't forget to refer to the proper branch)
11. Create a pull request from the homework related branch to main (i.e., main <- "homework branch")
12. Open and complete the merge of the pull request (it should turn purple)
13. Locally checkout main and pull the latest changes (to prepare for future work)
14. Take the same output file and upload it to Canvas

Branch name: M4-SQL-Readings

Tasks: 2 Points: 10.00

SQL Readings (8 pts.)

^COLLAPSE ^

Task #1 - Points: 1  
Text: Completion Screenshots

#1) MySQL and RDBMS Fundamentals

**Caption (required) ✓**  
*Describe/highlight what's being shown*  
Showing lesson 1.1-1.3 completed

#2) Query Basics Lessons 2.1 - 2.8

**Caption (required) ✓**  
*Describe/highlight what's being shown*  
Showing lessons 2.1-2.8 completed

#3) Data Manipulation Lessons 3.1 -

**Caption (required) ✓**  
*Describe/highlight what's being shown*  
showing lessons 3.1-3.4 completed

#4) Query Techniques Lessons 4.1 -

**Caption (required) ✓**  
*Describe/highlight what's being shown*  
showing lessons 4.1-4.9 completed

#5) Advanced Queries Lessons 5.1 -

#6) Database Management Lessons 6.1 -

#7) MySQL Quiz at least 65%

**Caption (required) ✓**

*Describe/highlight what's being shown showing lessons 1-5.11 completed*

**Caption (required) ✓**

*Describe/highlight what's being shown showing lessons 63-6.1 completed*

**Caption (required) ✓**

*Describe/highlight what's being shown showing MySQL quiz completed*

Reflection (2 pts.)

^COLLAPSE ^

Task #1 - Points: 1

Text: Fill in the below prompts

#1) What concepts/topics were totally

**Explanation (required)**

*Mention specific concepts/topics*

PREVIEW RESPONSE

None of the concept were completely new to me. Last Semester I took CS331 and was able to learn SQL. I did an entire banking database with a partner and learned a lot about SQL.

#2) What concepts/topics were you

**Explanation (required)**

*Mention specific concepts/topics*

PREVIEW RESPONSE

I was already familiar with all of these topics. Things such as inserting, deleting, updating, and handling all types of different anomalies in SQL is something that I did a lot last semester. It was however good to expand on my knowledge and get a refresher by reading these articles.

#3) What topics do you still not feel confident

**Explanation (required)**

*At least a few reasonable sentences.*

PREVIEW RESPONSE

I feel confident about all of the topics. If anything I would like to dive deeper into the different types of queries. There are some queries that can get very complex and it would be cool to try to tackle those different kind of issues to get better.
