Instructions

^ COLLAPSE ^

1. Visit w3schools and go to the PHP Tutorial: <https://my-learning.w3schools.com/tutorial/php>
2. Complete the following readings
 1. Introductions Lessons 1.1 - 1.6
 2. Variables 2.1 - 2.2
 3. Echo/Print 3.1
 4. Data Types Lessons 4.1 - 4.5
 5. String Lessons 5.1 - 5.5
 6. Operators and Math Lessons 6.1 - 6.2
 7. Conditionals Lessons 7.1 - 7.6
 8. Loops Lessons 8.1 - 8.7
 9. Functions Lessons 9.1
 10. Arrays Lessons 10.1 - 10.10

Guide:

1. Make sure you're in the main branch locally (`git checkout main`) and `git pull origin main` any pending changes
2. Make a new branch per the recommended branch name below (`git checkout -b ...`)
3. Fill in the items in the worksheet below (save as often as necessary)
4. Once finished, export the worksheet
5. Add the output file to any location of your choice in your repository folder (i.e., a Module2 folder)
6. Check that git sees it via `git status`
7. If everything is good, continue to submit
 1. Track the file(s) via `git add (name_of_file)`
 2. Commit the changes via `git commit -m "some summary of the work"` (don't forget the commit message)

forget the commit message)

3. Push the changes to GitHub via `git push origin (the_branch_name)` (don't forget to refer to the proper branch)
4. Create a pull request from the homework related branch to main (i.e., main <- "homework branch")
5. Open and complete the merge of the pull request (it should turn purple)
6. Locally checkout main and pull the latest changes (to prepare for future work)
8. Take the same output file and upload it to Canvas

Branch name: M2-PHP-Readings

Tasks: 2 Points: 10.00

Readings (8 pts.)

^COLLAPSE ^

Task #1 - Points: 1

Text: Readings

#1) Introductions
Lessons 1.1 -

Caption (required) ✓

Describe/highlight what's being shown
Showing screenshot of introduction lessons completed

#2) Variables
2.1 - 2.2

Caption (required) ✓

Describe/highlight what's being shown
showing screenshot of variables lesson completed

#3) Echo/Print
3.1

Caption (required) ✓

Describe/highlight what's being shown
showing screenshot of echo lessons completed

#4) Data Types
Lessons 4.1 -

Caption (required) ✓

Describe/highlight what's being shown
showing screenshot of data type lessons completed

#5) String
Lessons 5.1 - 5.5

#6) Operators and Math
Lessons 6.1 -

#7) Conditionals
Lessons 7.1 -

#8) Loops
Lessons 8.1 - 8.7

Caption (required) ✓

Describe/highlight what's being shown
showing screenshot of strings lessons completed

Caption (required) ✓

Describe/highlight what's being shown
showing screenshot of operators and math lessons completed

Caption (required) ✓

Describe/highlight what's being shown
showing lessons of conditionals completed

Caption (required) ✓

Describe/highlight what's being shown
showing loops lessons completed

#9) Functions Lessons 9.1

Caption (required) ✓

Describe/highlight what's being shown
showing functions lessons completed

#10) Arrays Lessons 10.1 - 10.10

Caption (required) ✓

Describe/highlight what's being shown
showing arrays lessons completed

Reflection (2 pts.)

^COLLAPSE ^

Task #1 - Points: 1

Text: Reflect on the following topics

^COLLAPSE ^

#1) What concepts/topics were totally new to you?

Explanation (required) ✓

Mention specific concepts/topics

PREVIEW RESPONSE

All of the PHP concepts are new to me. Even though many of the features are very similar to other languages, learning how to do all of these different things in PHP feel different. For the most part the language is very similar to python. No concept was completely new to me, but the way of writing the language is new since I have never written in PHP before.

#2) What concepts/topics were you already familiar with?

Explanation (required) ✓

Mention specific concepts/topics

 **PREVIEW RESPONSE**

I was already familiar with arrays, functions, strings, variables, and pretty much most of it. However again writing these things in the PHP language is a bit different and takes some getting used to.

#3) What topics do you still not feel confident about? If confident, explain why.

**Explanation (required)** ✓

At least a few reasonable sentences.

 **PREVIEW RESPONSE**

I feel pretty confident about all of the topics. The only thing I feel I have to do is simply write in PHP a bit more so that I can get used to the syntax of the language, but the general concepts are very similar to other languages and are not difficult to pick up on.

End of Assignment
