Guide:

1. Make sure you're in the main branch locally and `git pull origin main` any pending changes

2. Make a new branch per the recommended branch name below (`git checkout -b ...`)

3. Fill in the items in the worksheet below (save as often as necessary)

4. Once finished, export the worksheet

5. Add the output file to any location of your choice in your repository folder

6. Check that git sees it via `git status`

7. If everything is good, continue to submit

8. Track the file(s) via `git add`

9. Commit the changes via `git commit` (don't forget the commit message)

10. Push the changes to GitHub via `git push` (don't forget to refer to the proper branch)

11. Create a pull request from the homework related branch to main (i.e., main <- "homework branch")

12. Open and complete the merge of the pull request (it should turn purple)

13. Locally checkout main and pull the latest changes (to prepare for future work)

14. Take the same output file and upload it to Canvas

Task #1 - Points: 1

Text: Fill in the below prompts

#1) What concepts/topics were totally new to you?

Explanation (required) ✓

Mention specific concepts/topics

📄 **PREVIEW RESPONSE**

HTML DOM and Async topics were completely new to me. Although I have heard of them before I had not dived deep into how to use them or what exactly it is that they help with and the information was very insightful.

#2) What concepts/topics were you already familiar with?

Explanation (required) ✓

Mention specific concepts/topics

📄 **PREVIEW RESPONSE**

I was already farmiliar with the basics concepts of html and html forms. I was also farmiliar with CSS styling but the readings helped further my knowledge

#3) What topics do you still not feel confident about? If confident, explain why.

Explanation (required) ✓

At least a few reasonable sentences.

📄 **PREVIEW RESPONSE**

I still do not feel entirely confident in Async and HTML DOM. I think I can use more practice and probably read over the readings one more time slowly. It is not that it

over the readings one more time slowly. It is not that it is a completely difficult topic to understand, however I think it is something that I would have to practice a few times before I completely get a grasp on it fully.
